**Subject:** Prism 1" custom blend?

Hi Peter-

I have a customer who wants a custom blend of 4 our Prism 1" colors of glass tile. They need 113 sheets (110 sq.ft.).

I would like see if we can start ordering these custom projects through your factory. Is this something that you can do in this amount or is there a larger minimum or for such a custom project? If you can do them I would get you color samples to match. Here is the blend that this client wants:

30% our P165

30% of our P167

30% of our P145

10% of our P170

Please let me know what the options for this may be and, if it can be done, what would the price be?

Thank you,  
Rebecca
